### DETAILED ACTION

**Claims 1 through 10 are cancelled.**

#### ***Specification***

The disclosure is objected to under 37 CFR 1.71, as being so incomprehensible as to preclude a reasonable search of the prior art by the examiner. For example, the following items are not understood: On page 3, line 12,26; page 4, line 9; page 9, Table 1; page 20, line 30 , it cites "**Step 1 MW**" without proper definition or disclosure for this terminology.

Applicant is required to submit an amendment which clarifies the disclosure so that the examiner may make a proper comparison of the invention with the prior art.

Applicant should be careful not to introduce any new matter into the disclosure (i.e., matter which is not supported by the disclosure as originally filed).

A shortened statutory period for reply to this action is set to expire ONE MONTH or THIRTY DAYS, whichever is longer, from the mailing date of this letter.

#### ***Claim Rejections - 35 USC § 112***

Claims 11-28 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The phrase "Step 1 MW" in claim 11 and claims 21-23 render the claims indefinite because "Step 1 MW" is

Art Unit: 1713

unclear. The phrase "Step 1 MW" is not defined by the claim, the specification does not provide a standard for ascertaining this Molecular Weight, and one of ordinary skill in the art would not be reasonably apprised of the scope of the invention.
